BAYE FARM

Juli Baye has owned the farm since 1997 and raises beef cattle. They also have horses, chickens, cats, and a dog.

The farm was bought from Banker Smith by Alexander Cota and is believed to have been built in the 1950's. The south addition was built by Harvey Cota in the late 1960's/early 1970's.

The Cota's got a government grant to turn the wetlands there into farmland. The Baye's are planning to convert the farmland back into wetlands once they retire.
