

# **KOSLOWSKY FARM**

## **BARN QUILTS #54 and #55**

**Ken and Mary Koslowsky are the third generation of their family living on the farm. The original barn was a milking barn with hay stored in the upper level. It was then turned into a free stall for housing steers.**

**At this time, it's being used for storage. The family recently had their barn redone with red steel and ordered two quilt blocks, one for each end of the barn.**

**The barn was built in the 1930's and is located at 7281 County M in Coleman.**

**This quilt block was installed by the Oconto Electric Coop on May 31, 2017.**
