

PETERSON FAMILY FARM HISTORY

Robert Peterson purchased the farm in 1989 (it is unknown the age of the farm) and milked cows until his retirement in 2008. The farm was then sold to Robert's son John and they currently raise calves, own several cats, and have a dog that resides at the property.

John purchased the barn quilts for his father who likes the barn quilts.

The Peterson's had two barn quilt blocks installed at their farm in May 2015.

- Quilt Block #25 is located on their barn and is a combination of 3 different quilt block patterns...Crossed Canoes/4-Patch/8-Pointed Star.
- Quilt Block #26 is located on their shed and is a modified 1904 Star pattern.
