## RIEWE FARM

**Oconto Electric Coop installing the Riewe block in June 2016**

The original barn on this property burned down, and the current barn was built around 1930. Originally the barn housed a milking herd.

An addition was added on to this barn in 1991 and the Riewe family currently uses it to house heifers and calves.

This barn was the **2016 Oconto County Breakfast** on the Farm location!
