

## **SCANLAN FAMILY FARM**

**The property has changed hands many times since the 1800's. In 1956, it was deeded to Charles and Dorothy Rosera. The large farmhouse was demolished and a new residence was erected.**

**The property was purchased by the Scanlans in 1974, and the land is in farm crops. There is also a wood stave silo by the barn.**

**This quilt block was designed by granddaughter Meghan Scanlan, and was painted and installed by the Scanlan family. It was given to Del as a birthday gift, and is visible from the Hwy 22 and County J intersection.**
